WORK EXPERIENCE

Wizy Software Labs Inc.   **Quezon City, PH**
Software Quality Assurance Tester   *Sept. 2023-December. 2023*
- Conducted exploratory testing to gain knowledge of the application, gaining a comprehensive understanding of its functionalities and the technologies employed.
- Analyzed requirements and developed test plans, test scenarios, and test cases based on the analysis of documentation to achieve the best result.
- Performed test case executions encompassing functional, validation, and regression testing for both the web and mobile applications.
- Examined the application and identified bugs, escalated issues to developers through reports such as replication of reported bugs, and validated implemented fixes.
- Conducted regular reviews and updates to align the smoke testing script with evolving application features and functionalities.
- Demonstrated a keen eye for detail and precision in scribing tasks during daily scrum ceremonies, contributing to the overall effectiveness of quality assurance processes.
- Developed and maintained detailed documentation on isolated issues, including steps to reproduce, environmental conditions, and potential impact, enhancing the efficiency of the debugging and fixing process.
- Employed advanced debugging techniques and analytical skills to isolate and pinpoint the root causes of complex issues, providing detailed reports to developers for resolution.

iGi   **Taguig, PH**
Livestream Assistant Technical Director   *Feb. 2022-October. 2022*
- Directed Co-Livestream Technical Director for presentation of scenes whilst live streaming.
